

Eco Farm Organics

Eco Farm Organics is a company with over 5 years of experience in every step of the organic food cycle, from supporting and advising farmers to improving the progression from farm to market. The result is streamlined quality control and traceability of every product!

We pride ourselves on the quality and safety of the ingredients we offer, and in the relationships we have nurtured around the world with our supplier and farmer partners and their communities.

Eco Farm Team focus to give fast and quality service to meet everyone from the corporate brands, product developers, professional chefs, and all the way through to the home cooks, families, and individuals who will consume the final product.

Our goal is to be the top distributor of specialty gourmet markets and the leader groceries to independent and chain stores in United States.

In order to reach that goal we strive to:

- Profitably improve the grocery food industry with organic & all natural items,
- Provide Excellent service to independent and chain grocery stores,
- Provide a wide array of organic food products
- Understand our customers' needs and wants
- 100% customer satisfaction
- Create opportunities for our employees' success
- Maintain a family-friendly, balanced and secure work environment

All of our certified organic and kosher items are stored in temperature-controlled, CTPAT-certified warehouse on East Coast (Saddle Brook, NJ).

We are passionately devoted to sourcing and delivering high-quality, safe organic ingredients in order to protect and promote the companies that we work with.

BIO ACTIVE

What is Royal Jelly?

The royal jelly is a valuable bee product which is excreted by worker bees to feed larvae and the queen bee in the hive. Being fed only with royal jelly, the to feed baby bees grows 2 times bigger and lives 30 times longer than other bees. 10 hydroxy-2-decanoic acid (10-HDA) is an unsaturated healthy fatty acid found only in royal jelly and has been reported to have many health benefits such as anti-tumor activity, collagen production promoting activity and biostimulating activity (improved physical performance).

The Benefits of Royal Jelly

- Long term ingestion of royal jelly can improve cardiovascular health.
- Intake of royal jelly can improve the human immunity.
- Royal jelly can improve physical performance and fitness.
- Intake of royal jelly can improve the mental state and performance. These changes are especially significant in older people.

What is propolis?

Propolis is a resinous substance that bees collect from buds and exudates of plants and mix with their intrinsic enzymes. The word PROPOLIS is reputed to have been coined by Aristotle, from the Greek words "pro" (before) and "polis" (city), meaning, "Before The City", or "Defender Of The City". Propolis protects the hive against bacterial and viral infections with its high antibacterial and antioxidant properties.

The Benefits of Propolis

- Intake of propolis may reduce the risk for the emergence of cancer.
- Propolis may improve gut health, digestion and immunity.
